

## **CORRECTED FISCAL NOTE**

### **HB 563 - SB 1178**

March 20, 2007

**SUMMARY OF BILL:** Broadens the group of persons required to furnish DNA samples for testing to include misdemeanor offenders required to register with the sexual offender registry.

#### **ESTIMATED FISCAL IMPACT:**

On March 5, 2007, we issued a fiscal note which indicated *an increase in state expenditures of \$210,900/Incarceration\* and an increase in local govt. expenditures – not significant*. Based on the additional information provided to us, the estimated fiscal impact of this bill is:

#### **(CORRECTED)**

**Increase State Expenditures – Not Significant**

**Increase Local Govt. Expenditures – Not Significant**

#### **Assumptions:**

- Including the misdemeanor DNA samples may result in additional convictions; however, the increase is difficult to estimate.
- Local law enforcement will see an increase in the number of persons required to furnish DNA samples. The increase in expenditures is estimated to be not significant.
- The proposed legislation will not have a significant impact on the Board of Probation and Parole (BOPP). BOPP currently requires DNA specimens from all offenders, including misdemeanor probationers, under their supervision.
- TBI would not require additional resources to perform DNA analysis. Chapter 891 of the Public Acts of 2006 created six additional special agent/forensic scientist positions to perform DNA analysis in criminal investigations.

#### **CERTIFICATION:**

This is to duly certify that the information contained herein is true and correct to the best of my knowledge.
